

Exclusively servicing the building industry

CONSTRUCT SOLAR

CONSTRUCT SOLAR HOT WATER PROVIDER

Construct Solar is proud to announce its partnership with Chromagen Hot Water.

As part of our commitment to deliver Green Energy products within the SA building industry, we have partnered with a leading solar hot water manufacturer to deliver an efficient range of Hot water products as a addition to our Solar PV and LED turn key services.

Gas Safety Certified

WaterMark

WHY SOLAR HOT WATER?

Save

Save on your water heating cost - did you know the average household uses up to 25% of energy on hot water heating?

Environmentally friendly - reduce your usage on non renewable resources.

Affordability - Government incentives have made it more affordable to acquire this technology. Construct Solar offers turn key rebates off pricing for your long term convenience.

ASK

...about our Solar PV and Hot Water Packages we have available for our builders. Let us tailor a suitable energy efficient package that is both profitable for your business and beneficial for your customers attentive needs.
